

ANGE ENANE

COMPUTER SCIENCE STUDENT

Meisenweg, 67663 Kaiserslautern

0176 80 39 52 52

angeenane12@gmail.com

Education

2021 - 2024

Bachelor, Technische Universität Kaiserslautern, Deutschland

2018 - 2020

Attended a german course
Degree: TestDaF

2011 - 2018

Elementary school
Degree: Advanced level

2003 - 2005

Kindergarden

Skills

HTML/CSS

Javascript

Java

Python

Jquery

Excel and word

powerpoint

School experience

Java

Using java, we have developed a game in which several players try to color the nodes of a graph with their own colors. We are to implement a data structure for directed graphs and testfälle for it.

Python

We learned the importance of precision when developing software, with the help of matrices various mathematical problems and algorithms were solved: Cholesky Decomposition, Projections, Solving linear systems via numerical optimization and many others

Hobbies

Dance

Reading

Art

Musique

Mode

PROFILE

I'm a computer science student and learn new things. My daily challenge is to learn new things about technologies and personal intelligence because it can help me improve on certain subjects. I believe that with a clear goal, discipline and hardwork we can archive great thoughts.
